IBM Watson IoT Platform Journey

✓

Lite

The Lite service plan provides a lightweight development environment to get you started with the connectivity capabilities of Watson IoT Platform.

○

Non-Production

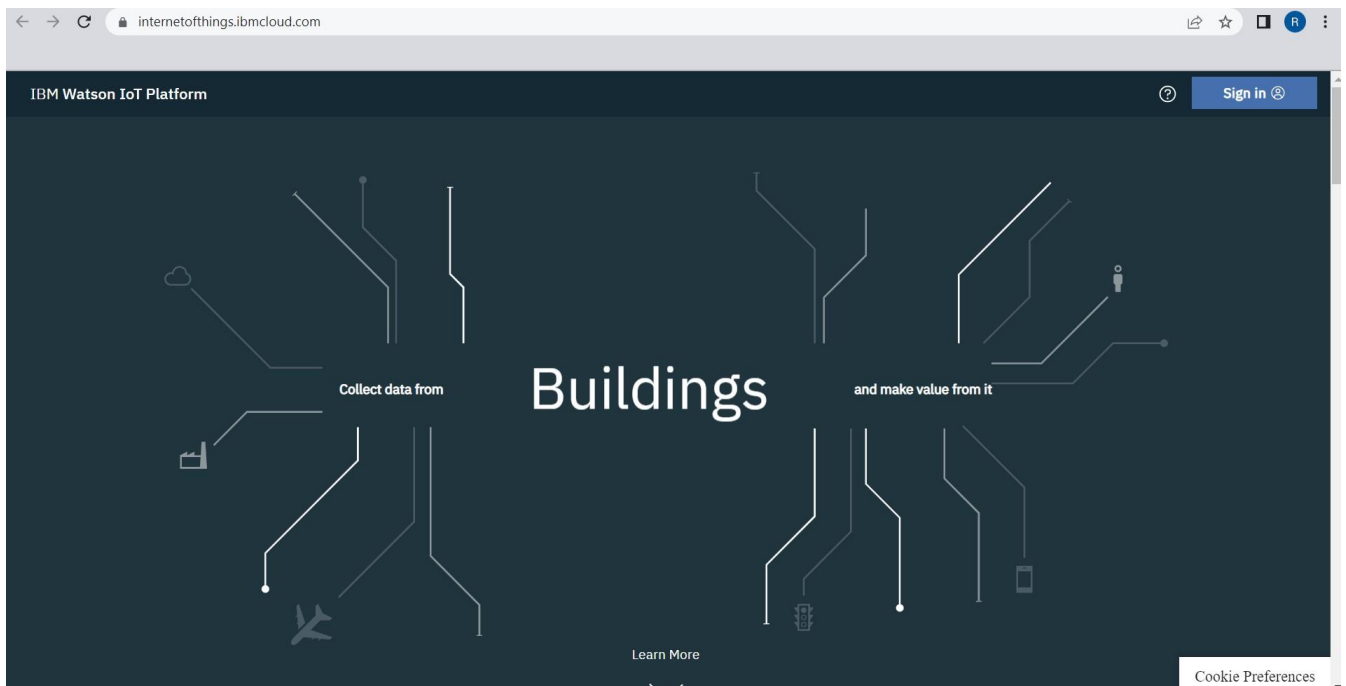

The Non-Production service plan is a full-featured, fully-integrated offering that enables you to explore Watson IoT Platform to see how the service can fit into your IoT environment.

○

Production

The Production service is a fully managed SaaS offering that enables you to manage and analyze enterprise IoT data.

○ click create and the launch tab get open, then click launch

- It redirect you to **IBM WATSON** platform where you need to click **sign in**
- check boards for risk and security overview card, it uses for **graphical representation boards**
